- Bike Storage, lockers, fitness and shower facilities
- Upgraded water efficient restroom fixtures
- Upgraded energy efficient lighting and motion sensors
- VFD Fixtures on all HVAC equipment regulating energy consumption
- BOMA 360 Designation

About Carroll Square

Located at the corner of Tenth and F Streets next to historic St. Patrick's Church, Carroll Square masterfully integrates office, retail, and arts uses to create a tranquil boutique environment.

Designed by SmithGroup and developed by Akridge in 2007, the trophy-class property incorporates four renovated late 19th century commercial townhouses and the facades of two others, as well as a defining architectural cupola and a distinguished new structure accented with brick and stone. The project features subsidized studios for artists and a public art gallery curated by J. Dubois Arts.

Transportation: Ride, Walk, or Bike

Located in the heart of the downtown Penn Quarter neighborhood, Carroll Square is a short walk to the Metro Center and Gallery Pl-Chinatown Metro Stations, and minutes to vibrant retail, restaurants, and entertainment. Bicycle commuting is supported by the availability of bike racks and a tire-pump service station in the building garage, along with convenient lockers, changing areas, and showers in the on-site fitness facility.
